(+62) 822-1409-3455 | Indonesia

Education

University of Indonesia
Undergraduate
GPA 3.8

July 2021 - Present

Technical Skills

Django Framework, Python, C++, Javascript, HTML, CSS, React.js, Kotlin, SQLite3, Competitive Programming

Projects

My blog application

March 2022

Made using Django, CSS and Python
freejing.herokuapp.com/blog

- Developed a web application using Django to learn Web Development
- Features include a user authentication system, upvote system, post creation / edit, comments creation / edit, a home page that shows 10 of the most recent blog posts and a navbar on top

A polls application

March 2020

Made using Django, CSS and Python
freejing.herokuapp.com/polls

- Features include an admin site to add / edit new polls, adding new choices to a poll, a home page that shows 10 of the most recent polls and a navbar on top

A birthday tracker application

March 2020

Made using Django, CSS and Python
freejing.herokuapp.com/birthday_tracker

- Features include a dynamic calendar (depending on the month), with the dates showing in red if a person's birthday is on that date, an input data site for people to input their birthday, and a navbar on top

A competition website

September 2019

Made using CSS and HTML with a little bit of Javascript
bcomp.id

- A simple website for competition participants to register, submit answers, and many other features
- Updated and maintained the website for the best user experience
